ATM Convenience

When we moved to our new main office on Mayberry St., our ATM machine located in the breezeway next to the old office moved too! But don't forget we have a new full service ATM located inside the Loma Linda Market, as well as, cash dispensing machines located at the Dental School and at Drayson Center.

At our new office you will be able to choose between our new drive-through ATM or the walk-up ATM. You can make deposits or withdrawals at either of these full service ATMs 24 hours a day, seven days a week. And, as always, there are over 25,000 surcharge-free CO-OP ATMs located nationwide and in Canada for your convenience. To locate one near you, go to our website at www.llfcu.org and click on the Quick Link for ATM Locations.

Three Smart Reasons To Take Out A Home Equity Loan

For those who treated their home as if it were an ATM, the housing slump may be causing some financial difficulty. But a home equity loan is still a shrewd way to borrow. The key, as always, is the wise use of credit. Here are three smart reasons to consider a home equity loan:

1. For renovations, repairs, or upgrades to your home. Making your home more energy efficient by replacing windows or adding insulation, for example, can save you money as well as help save Mother Earth.
2. For debt consolidation. While a home equity loan isn't a free pass to turn short-term debt you've accumulated on credit cards into long-term debt, it is a way to get back on track while interest rates are low. Make a plan and stick to it.
3. For tax savings. A home equity loan can be a tax-advantaged way to borrow. So if you need new wheels, financing a vehicle with a home equity loan rather than a traditional car loan may save you tax dollars. See your Tax Consultant for verification.

The loan process is very simple. Depending on the amount of the loan and the amount of equity in your home, the loan can be available in a few days. Stop by your credit union today to see if you qualify for a home equity loan.
